With an acceptance ratio far lower than Harvard or MIT, the IIT JEE (or JEE Advanced) is one of the most competitive exams in the world. So how do the toppers succeed? Are there smart ways to prepare for the exam? How does the students' quest transform the lives of their families? Through extensive interviews with JEE top rankers, pioneering teachers and the many students who had to fight extraordinary odds to get into an IIT, Soum Paul, entrepreneur and IIT Kanpur alumnus, puts together stories of fierce competition, incredible hard work and sacrifice. A fascinating account of the battle of a million brains.
