The best known, most often cited history of anthropological theory is finally available in paperback! First published in 1968, Harris's book has been cited in over 1,000 works and is one of the key documents explaining cultural materialism, the theory associated with Harris's work.

The Rise of Anthropological Theory: A History of Theories ...

History of anthropology in this article refers primarily to the 18th- and 19th-century precursors of modern anthropology. The term anthropology itself, innovated as a New Latin scientific word during the Renaissance, has always meant "the study (or science) of man". The topics to be included and the terminology have varied historically.

History of anthropology - Wikipedia

Cultural anthropology has often relied upon conceptions taken from critical theory or social constructivism, in which a theory is something constructed either by the researcher or by the community of which the researcher is a part. Mixed conceptions of theory are rare.

Anthropological Theory - Theory in Anthropology - iResearchNet

The discussion of each anthropological theory or approach is organized into a common set of topics: Basic Premises : a brief description of the general aims and methods of the theory in question. Points of Reaction: a consideration of the elements of previous anthropological (or other) approaches whose perceived deficiencies inspired new theoretical or methodological alternatives.

Anthropological Theories A guide prepared by students for ...

Anthropological Theory is an international peer reviewed journal seeking to strengthen anthropological theorizing in different areas of the world. This is an exciting forum for new insights into theoretical issues in anthropology and more broadly, social theory.

Anthropological Theory: SAGE Journals

The emergence of classic sociological theory in the works of Comte, Marx, and Tönnies, and later Durkheim, Weber, Pareto, and Simmel, provided anthropologists with general theories of society, although their applicability to non-European societies continues to be disputed. The

anthropological theory, neither choice is ideal. We created this volume to provide an accessible means of introducing readers to the past century and a half of theory in anthropology. We believe that it is essential for students to read original essays by influential scholars whose work has determined the paths in which anthropology has developed.

Anthropological Theory - Rowman & Littlefield

This comprehensive anthology presents 34 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline. The readings have broad anthropological appeal, emphasizing cultural anthropology in the North American and European traditions. Thematic coverage begins with nineteenth-century foundations and forerunners, before ...

Readings for a history of anthropological theory ...

Beginning in the 1930s, and especially in the post-World War II period, anthropology was established in a number of countries outside western Europe and North America. Very influential work in anthropology originated in Japan, India, China, Mexico, Brazil, Peru, South Africa, Nigeria, and several other Asian, Latin American, and African countries.

"An accessible and engaging overview of anthropological theory that provides a comprehensive history from antiquity through to the twenty-first century. The fifth edition has

been revised throughout, with substantial updates to the Feminism and Anthropology section, including more on Gender and Sexuality, and with a new section on Anthropologies of the Digital Age. Once again, A History of Anthropological Theory will be published simultaneously with the accompanying reader, mirroring these changes in the selection of readings, so they can easily be used together in the classroom. Additional biographical information about some of theorists has been added to help students."--

This overview of the history of anthropological theory provides a comprehensive history from antiquity through to the twenty-first century, with a focus on the twentieth century and beyond. Unlike other volumes, it also offers a four-field introduction to theory. As a stand-alone text, or used in conjunction with the companion volume Readings for a History of Anthropological Theory, Erickson and Murphy offer a comprehensive, affordable, and contemporary introduction to anthropological theory. The third edition has been updated and fully revised throughout to closely parallel the presentation in the companion reader, making it easier to use both books in tandem. New original essays by contemporary theorists bring theories to life, and portraits of important theorists make it a handsome volume. Sources and suggested readings have been updated, and glossary definitions have been updated, streamlined, and standardized.

"This edition features a new preface and new and expanded sections on transactionalism, feminist anthropology, postmodernity, medical anthropology, and globalization."--BOOK JACKET.

The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory, with a sharpened focus on gender and anthropology, and the anthropology of new media and technology. Short introductions and key terms accompany every reading, and light annotations have been added to aid students in reading original articles. Used on its own or together with A History of Anthropological Theory, Fifth Edition, this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today.

paperback! First published in 1968, Harris's book has been cited in over 1,000 works and is one of the key documents explaining cultural materialism, the theory associated with Harris's work. This updated edition included the complete 1968 text plus a new introduction by Maxine Margolis, which discusses the impact of the book and highlights some of the major trends in anthropological theory since its original publication. RAT, as it is affectionately known to three decades of graduate students, comprehensively traces the history of anthropology and anthropological theory, culminating in a strong argument for the use of a scientific, behaviorally-based, etic approach to the understanding of human culture known as cultural materialism. Despite its popularity and influence on anthropological thinking, RAT has never been available in paperback_until now. It is an essential volume for the library of all anthropologists, their graduate students, and other theorists in the social sciences.

The sixth edition of this bestselling text offers a concise history of anthropological theory from antiquity to the twenty-first century, with new and significantly revised sections that reflect the current state of the field.

In the latest edition of their popular overview text, Erickson and Murphy continue to provide a comprehensive, affordable, and accessible introduction to anthropological theory from antiquity to the present. A new section on twenty-first-century anthropological theory has been added, with more coverage given to postcolonialism, non-Western anthropology, and public anthropology. The book has also been redesigned to be more visually and pedagogically engaging. Used on its own, or paired with the companion volume Readings for a History of

Anthropological Theory, Fourth Edition, this reader offers a flexible and highly useful resource for the undergraduate anthropology classroom. For additional resources, visit the "Teaching Theory" page at www.utpteachingculture.com.

This lively book offers a fresh look at the history of anthropological theory. Covering key concepts and theorists, Mark Moberg examines the historical context of anthropological ideas and the contested nature of anthropology itself. Anthropological ideas regarding human diversity have always been rooted in the socio-political conditions in which they arose and exploring them in context helps students understand how and why they evolved, and how theory relates to life and society. Illustrated throughout, this engaging text moves away from the dry recitation of past viewpoints in anthropology and brings the subject matter to life. Additional resources are available via a companion website at: <http://www.routledge.com/cw/moberg-9780415809160/>

For over twenty years, A History of Anthropological Theory has provided a strong foundation for understanding anthropological thinking, tracing how the discipline has evolved from its origins to the present day. The sixth edition of this important text offers substantial updates throughout, including more balanced coverage of the four fields of anthropology, an entirely new section on the Anthropocene, and significantly revised discussions of public anthropology, gender and sexuality, and race and ethnicity. Written in accessible prose and enhanced with illustrations, key terms, and study questions in each section, this text remains essential reading for those interested in studying the history of anthropology. On its own or used with the
