From the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism*, “ a book to think with through the political impasses and cultural confusions of our day ” (Harper's Magazine) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In *Between Past and Future* Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

Arendt describes the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, glory. Through a series of eight exercises, she shows how we can redistill once more the

vital essence of these concepts.

From the No.1 bestselling author of *The Establishment*, an urgent analysis of where the Left - and Britain - goes next 'An absorbing, nuanced account of the making of electoral disaster' Gaby Hinsliff, *Guardian Books of the Year* 'A whodunnit political page-turner' Melissa Benn, *New Statesman Books of the Year* We live in an age of upheaval. The global crisis of Covid-19 has laid bare the deep social and economic inequalities which were the toxic legacy of austerity. These revolutionary times are an opportunity for a radical rethink of Britain as we know it, as the politically impossible suddenly becomes imaginable. And yet, the Left's last attempt to upend the established order and transform millions of lives came to a crashing halt on 12th December 2019, when Jeremy Corbyn led the Labour party to its worst electoral defeat since 1935. In *This Land*, Owen Jones provides an insider's honest and unflinching appraisal of a movement: how it promised to change everything, why it went so badly wrong, where this failure leaves its values and ideas, and where the Left goes next in the new world we find ourselves in. He takes us on a compelling, page-turning journey through a tumultuous decade in British politics, gaining unprecedented access to key figures across the political spectrum. It is a tale of high hopes and hubris, dysfunction and disillusionment. There is, Jones urges, no future for any progressive project that does not face up to and learn from its errors. We have the opportunity to build a fairer country and a more equal world, but if our time is to come, then we must learn from our past.

'Substantial' excerpts from three main works: *The origins of totalitarianism*, *The human condition*, and *Eichmann in Jerusalem* as well as essays and correspondence.

In this stimulating collection of studies, Dr. Arendt, from the standpoint of a political philosopher, views the crises of the 1960s and early '70s as challenges to the American form of government. The book begins with "Lying in Politics," a penetrating analysis of the Pentagon Papers that deals with the role of image-making and public relations in politics. "Civil Disobedience" examines the various opposition movements from the Freedom Riders to the war resisters and the segregationists. "Thoughts on Politics and Revolution," cast in the form of an interview, contains a commentary to the author's theses in "On Violence." Through the connected essays, Dr. Arendt examines, defines, and clarifies the concerns of the American citizen of the time.--From publisher description.

Each of the books that Hannah Arendt published in her lifetime was unique, and to this day each continues to provoke fresh thought and interpretations. This was never more true than for *Eichmann in Jerusalem*, her account of the trial of Adolf Eichmann, where she first used the phrase "the banality of evil." Her consternation over how a man who was neither a monster nor a demon could nevertheless be an agent of the most extreme evil evoked derision, outrage, and misunderstanding. The firestorm of controversy prompted Arendt to readdress fundamental questions and concerns about the nature of evil and the making of moral choices. *Responsibility and Judgment* gathers together unpublished writings from the last decade of Arendt's life, as she struggled to explicate the meaning of *Eichmann in Jerusalem*. At the heart of this book is a profound ethical investigation, "Some Questions of Moral Philosophy"; in it Arendt confronts the inadequacy of traditional moral "truths" as standards to judge what we are capable of doing, and she examines anew our ability to distinguish good from evil and right from wrong. We see how Arendt comes to understand that alongside the radical evil she had addressed in earlier analyses of totalitarianism, there exists a more pernicious evil, independent of political ideology, whose execution is limitless when the perpetrator feels no remorse and can forget his acts as soon as they are committed. *Responsibility and Judgment* is an essential work for understanding Arendt's conception of morality; it is also an indispensable investigation into some of the most troubling and important issues of our time.

The brilliant thinker who taught us about the banality of evil explores another brilliant thinker and his concept of love. Hannah Arendt, the author of *The Origins of Totalitarianism* and *The Human Condition*, began her scholarly career with an exploration of Saint Augustine's concept of *caritas*, or neighborly love, written under the direction of Karl Jaspers and the influence of Martin Heidegger. After her German academic life came to a halt in 1933, Arendt carried her dissertation into exile in France, and years later took the same battered and stained copy to New York. During the late 1950s and early 1960s, as she was completing or reworking her most influential studies of political life, Arendt was simultaneously annotating and revising her dissertation on Augustine, amplifying its argument with terms and concepts she was using in her political works of the same period. The dissertation became a bridge over which Arendt traveled back and forth between 1929 Heidelberg and 1960s New York, carrying with her Augustine's question about the possibility of social life in an age of rapid political and moral change. In *Love and Saint Augustine*, political science professor Joanna Vecchiarelli Scott and philosophy professor Judith Chelius Stark make this important early work accessible for the first time. Here is a completely corrected and revised English translation that incorporates Arendt's own substantial revisions and provides additional notes based on letters, contracts, and other documents as well as the recollections of Arendt's friends and colleagues during her later years. "Both the dissertation and the accompanying essay are accessible to informed lay readers. Scott and Stark's conclusions about the cohesive evolution of Arendt's thought are compelling but leave room for continuing discussion." —*Library Journal* "A revelation." —*Kirkus Reviews*

The Reluctant Modernism of Hannah Arendt rereads Arendt's political philosophy in light of newly gained insights into the historico-cultural background of her work. Visit our website for sample chapters!

Hannah Arendt was born in Germany in 1906 and lived in America from 1941 until her death in 1975. Thus her life spanned the tumultuous years of the twentieth century, as did her thought. She did not consider herself a philosopher, though she studied and maintained close relationships with two great philosophers--Karl Jaspers and Martin Heidegger--throughout their lives. She was a thinker, in search not of metaphysical truth but of the meaning of appearances and events. She was a questioner rather than an answerer, and she wrote what she thought, principally to encourage others to think for themselves. Fearless of the consequences of thinking, Arendt found courage woven in each and every strand of human freedom. In 1951 she published *The Origins of Totalitarianism*, in 1958 *The Human Condition*, in 1961 *Between Past and Future*, in 1963 *On Revolution and Eichmann in Jerusalem*, in 1968 *Men in Dark Times*, in 1970 *On Violence*, in 1972 *Crises of the Republic*, and in 1978, posthumously, *The Life of the Mind*. Starting at the turn of the twenty-first century, Schocken Books has published a series of collections of Arendt's unpublished and uncollected writings, of which *Thinking Without a Banister* is the fifth volume. The title refers to Arendt's description of her experience of thinking, an activity she indulged without any of the traditional religious, moral, political, or philosophic pillars of support. The book's contents are varied: the essays, lectures, reviews, interviews, speeches, and editorials, taken together, manifest the relentless activity of her mind as well as her character, acquainting the reader with the person Arendt was, and who has hardly yet been appreciated or understood. (Edited and with an introduction by Jerome Kohn)
