Whether you are an acrylic painter who's after the luminous effects of watercolor or a watercolorist seeking the same with fewer hassles, this is the book for you!

Color Mixing in Acrylic features a range of techniques and valuable instruction for working with and mixing color in this classic medium.

For more than 200 years the world has accepted that red, yellow and blue - the artists primaries - give new colours when mised. And for more than 200 years artists have been struggling to mix colours on this basis. In this exciting new book, Michael Wilcox offers a total reassessment of the principles underlying colour mixing. It is the first major break-away from the traditional and limited concepts that have caused painters and others who work with colour so many problems. Back Cover.

This is a book of over seventy full-size decorative papers that you can use for collage and other paper craft projects. They are all designed by Jane Davies and derived from her colorful and expressive abstract paintings. Enjoy cutting them up and combining with your own hand-painted papers or ephemera, for collages, journals, greeting cards, and more.

For acclaimed artist John Hammond, a successful painting requires more than just technique: it must evoke both individual sensibility and a strong sense of place, whether it's the warmth of the sun on a beach or the natural glory of a flower meadow. In this stunningly illustrated guide, he takes readers on a tour of the wonderful possibilities of acrylics on canvas and reveals how to make visual magic happen. Through 100 of his own paintings, Hammond teaches artists how to find striking subjects to portray and to bring beautiful scenes to life through the use of design, color, and composition. At the end of each chapter, he provides a detailed "picture analysis" of one of his pieces that explains how the techniques he's described come alive on canvas.
