Hermetic Magic By Stephen E Flowers

Hermetic Magic By Stephen E Flowers

The Egyptians worshipped their own gods with particular rituals. This translation of The Magical Papyrus of Abaris shows modern seekers how to perform their own ritual celebrations of life.

Reveals the historical roots of the symbology of the Tarot in the Mithraic tradition of the Persian Magi and the Hermetic tradition
• Explores the Magian teachings on the Stoeicheia and how this magical alphabet was the template for the Tarot
• Explains how the sequencing of the Major Arcana is related to the images used in Mithraic initiation
• Looks at the original meanings of the Major Arcana using Mithraic symbolism, as well as the deep-level connections of the Tarot with Egypt, the Romani people, the Semitic tradition, and runes
The Tarot is a mythic map of the world and of consciousness. It offers a meta-language of signs and symbols that communicate their meaning precisely. Yet the true origins of the Tarot remain shrouded in mystery. These oracular cards have long been thought to have come from Egypt or from the “Gypsies,” but as Stephen E. Flowers reveals, their original roots lie in the Mithraic tradition of the Persian Magi. In this book, Flowers explores the historical roots and mythology of the symbolic images that became known as the Tarot. Drawing on theories first pioneered by the Swedish scholar Sigurd Agrell (1881-1937), he reveals the genesis of the Tarot’s symbolism in the great Hermetic tradition at the same time the Magical Papyri were being written in Greco-Roman Egypt. He explains how the sequencing of the Major Arcana is related to the images used in Mithraic initiation, elements of which were then integrated into existing Roman and Egyptian traditions. Exploring the Magian teachings on the Stoeicheia, an alphabet that acted as a map for understanding the order of the cosmos, he demonstrates how this alphabet of magical symbols was the template for the Tarot. The author also shows how the 22 Major Arcana cards were related to the 22 letters of the Roman alphabet used for oracular purposes in ancient times. Looking in-depth at the principles of Mithraism, the author explains how the Roman form of Mithraism, a guiding factor in the early shaping of the Tarot, was itself a synthesis of Iranian Magianism, Greek stoicism, Babylonian astrology, and Greco-Egyptian Hermeticism. Exploring the cards themselves, Flowers then looks at the original meanings of the Major Arcana using Mithraic symbolism and its offshoots. He also explains the truth behind many of the myths surrounding the Tarot, including their deep-level connections with Egypt, the Romani people, the Semitic tradition, and runes. By restoring the original mysteria to the icons of the Tarot and learning their true origins, we can better understand the insight these powerful cards impart in divination.

A complete guide to the theory, practice, and history of Mazdan magic, the first organized system of magic
• Provides a complete curriculum of magical study and initiation centered on exercises keyed to the sacred Zoroastrian calendar
• Details advanced magical rituals and practices based on archaic Persian formulas, including fire rituals and divine invocations
• Explores the history and lore of Persian magic, explaining how the author reconstructed the original Mazdan system of magic
Stephen Flowers explores the history, theory, practice, rituals, and initiations of the Mazdan magical system practiced by the Magi of ancient Persia, who were so skilled and famed for their effectiveness that their name came to mean what we today call “magic.” The prestige and reputation of the Magian priests of Mazda is perhaps most iconically recorded in the Christian story of the Three Wise Men who visited newborn Jesus. The author explains how the religious branch of the Mazdan magical system, founded by the Prophet Zarathustra, is known in the West under the name Zoroastrianism. He reveals how the Zoroastrian religion, which acts as a matrix for the symbols and formulas of the original form of magic, has existed for almost four thousand years with roots going back even deeper into the Indo-European past. The author reveals how all other known systems of magic have borrowed from this tradition, providing the clues that enabled him to reformulate the original Mazdan system. He reviews what the Greeks, Romans, Hebrews, Christians, and Chinese said about the Iranian-Persian tradition of the Mazdans and their invention of a magical technology. He explains how the ultimate aim of the original form of magic was not only individual wisdom, self-development, and empowerment, but also the overall betterment of the world. Outlining the theoretical principles of this method, which can be applied in practical ways to deepen the effectiveness of these magical operations, the author details a complete curriculum of magical study and initiation based on a series of graded exercises keyed to the sacred Zoroastrian calendar. He then offers a series of more advanced magical rituals and practices based on archaic Persian formulas, including fire rituals and divine invocations. Providing a manual for the original magical system used by the members of the Great Fellowship, this book guides you toward the comprehensive practice of the Mazdan philosophy, the ultimate outcome of which is ushta: Happiness.

The most in-depth work in English on the most influential secret magic group of 20th-century Germany, the Fraternitas Saturni, or Brotherhood of Saturn
• Explores the history of the Order from its founding the late 1960s
• Transcribes many rituals and practices in such detail that readers will be able to undertake their own experiential work
• Examines the Order’s teachings on cosmology, the Kabbalah, the Saturnian Sacraments, electrical magic, and sexual mysticism--the Yoga of the Dark Light
• Includes biographies of prominent members, including founder Gregor A. Gregorius, Karl Spiesberger (Frater Eratus), and Albin Grau (Master Pacitius)
The most influential magical group in Germany during the 20th century, the Fraternitas Saturni, or Brotherhood of Saturn, is still the most active and important magical society in Germany today. But from its formal beginnings in 1926 in Weimar Berlin until around 1970 it was almost totally secret. Most of what is known about the Order in the English-speaking world is fragmentary and focuses exclusively on the sensational sex-magic practices and Luciferian tendencies of this magical lodge. Presenting the most in-depth work in English on the Fraternitas Saturni, Stephen Flowers examines the history of the Order from the mid-1920s to the late 1960s when the Order was fundamentally reformed. He details their path of initiation, secret doctrines, ritual practices, and magical formulas and offers biographies of the Order’s most prominent members, including founder Gregor A. Gregorius, Karl Spiesberger (Frater Eratus), Albin Grau (Master Pacitius), and Franz Saettler (Dr. Musallam). Exploring the Brotherhood’s guiding principles, he shows that at the heart of Saturnian ideology is the idea of Saturn-Gnosis: the interplay of opposing forces in the universe leading to the realization of the individual self as a god-like entity. He examines the Order’s teachings on cosmology, the Kabbalah, the Saturnian Sacraments, electrical magic, sexo-cosmology, sex-magic rites, and sexual mysticism--the Yoga of the Dark Light--and transcribes many of their actual rituals and practices, including the highly controversial Gradus Pentaphae, in such detail that readers will be able to undertake their own experiential work. Explaining the meanings of all 33 grades of the Order, the author also looks at the infamous Freemasonic Order of the Golden Centurium, the cult of Adonism, the links between Thelema and the Fraternitas Saturni, and the rare teachings of Master Pacitius (Albin Grau), the visual genius behind the film Nosferatu. He also includes rare reports by Aleister Crowley concerning his interaction with some of the forerunners to the Order and letters from the Order’s founder, Gregor A. Gregorius, to the “Great Beast.”

Examines the left-hand path and reveals the masters of the tradition
• Explores the practices and beliefs of many left-hand path groups, including the Cult of Set, the Hell-Fire Club, and heretical Sufi, Zoroastrian, Christian, and Muslim sects
• Investigates many infamous occult personalities, including Helena Blavatsky, Aleister Crowley, the Marquis de Sade, and Anton LaVey
• Explains the true difference between the right-hand path and the left-hand path--union with and dependence on God versus individual freedom and self-empowerment
From black magic and Satanism to Gnostic sects and Gurdjieff’s Fourth Way, the left-hand path has been linked to many practices, cults, and individuals across the ages. Stephen Flowers, Ph.D., examines the methods, teachings, and historical role of the left-hand path, from its origins in Indian tantric philosophy to its underlying influence in current world affairs, and reveals which philosophers, magicians, and occult figures throughout history can truly be called “Lords of the Left-Hand Path.” Flowers explains that while the right-hand path seeks union with and thus dependence on God, the left-hand path seeks a “higher law” based on knowledge and power. It is the way of self-empowerment and true freedom. Beginning with ancient Hindu and Buddhist sects and moving Westward, he examines many alleged left-hand path groups, including the Cult of Set, the Yezidi Devil Worshipers, the Assassins, the Neoplatonists, the Hell-Fire Club, the Bolsheviks, the occult Nazis, and several heretical Sufi, Zoroastrian, Christian, and Muslim sects. Following a carefully crafted definition of a true adherent of the left-hand path based on two main principles--self-deification and challenge to the conventions of “good” and “evil”--the author analyzes many famous and infamous personalities, including H. P. Blavatsky, Faust, the Marquis de Sade, Austin Osman Spare, Aleister Crowley, Gerald Gardner, Anton LaVey, and Michael Aquino, and reveals which occult masters were Lords of the Left-Hand Path. Flowers shows that the left-hand path is not inherently evil but part of our heritage and our deep-seated desire to be free, independent, and in control of our destinies.

Hermetic Magic By Stephen E Flowers

First complete translation of crucial 3rd-century A.D. manuscript of Egyptian magic, medicine. 15-foot roll of papyrus reveals spells, incantations, aphrodisiacs, invoking various gods. Probably compilation of practicing Egyptian sorcerer. Transliteration of demotic included.

Hermetic Magic By Stephen E Flowers

THE GALDRABOK, or Book of Magic, is the most important single document for understanding the practice of magic in late medieval Iceland. In this translation, the author discusses books of the black art, old gods, daemons of hell, runes and magical signs, theory and practice of magic.

A practical guide to the magical systems of pre-Christian Iceland
• Reveals spells and workings drawn directly from surviving magical books from the 16th to 20th century preserved at the National Library in Reykjavik
• Explores the history of magic in Iceland through original translations of Icelandic folktales about famous magicians and about legendary grimoires, such as the Galdrabók, the oldest and most complete book of its kind
• Explains how to personalize the spells through the creation of unique signs and symbols based on the mythic names of Odin and Icelandic magical alphabets
During the Christianization of Europe in the Middle Ages, many books of magic were lost as the ancient pagan traditions were suppressed. But in Iceland the practice of recording magical spells in books continued in secret for centuries, on a scale not seen elsewhere. Now housed in the National Library in Reykjavik, these surviving grimoires, which represent only a hundredth of what was lost, reveal a rich magical tradition that continued to evolve into the 20th century. Drawing directly from the actual surviving Icelandic books of magic, Stephen Flowers presents a complete system of magic based on Icelandic lore and magical practices from the 16th century onward. He explores the history of magic in Iceland in pagan and early Christian times and reveals specific practical techniques and ritual templates that readers can adapt to their unique purposes. Illustrating traditional Icelandic magical practices and the Icelanders’ attitudes toward them, he shares original translations of Icelandic folktales about famous magicians, such as the legend of Gray-Skin, and about legendary grimoires, such as the Galdrabók, the oldest and most complete book of its kind. After initiating the reader into the grammar and symbols of Icelandic magic through history and lore, Flowers then presents an extensive catalog of actual spells and magical workings from the historical Icelandic books of magic. These examples provide ready-made forms for practical experimentation as well as an exemplary guide on how to create signs and symbols for more personalized magical work. The author also includes guidance on creating unique magical signs from the 100 mythic names of Odin, which he translates and interprets magically, and from Icelandic magical alphabets, symbols that connect Icelandic magic to the ancient runic tradition.

Erbeth Transmissions is a deconstruction of some of the universes we live in. - Fritz Fredric
The absurdity of Robert Anton Wilson infused with the paranoia of Philip K. Dick and taunted with the vision of Wilhelm Reich. -- Ariel Jenway
A cosmo-demonic-space-opera-anthem for Generation X. -- Jarl Drakon
Aeons ago, a cosmic race of beings stumbled upon a lonely planet that would one day be called Earth. Who were they? Angels? Demons? Reptilians? Mankind’s benefactors? Or perhaps his oppressors? Where did intelligent life originate? Earth? The Moon? Mars? Or perhaps somewhere far beyond the boundaries of our Solar System? In the tradition of John Milton’s Paradise Lost and Mark Twain’s Letters from Earth; Erbeth Transmissions examines Man’s apocryphal origins and extra-terrestrial connections, contrasting his evolutionary potential against his self-destructive nature and the despairing search for the meaning of his existence.

Uncover the Techniques Used by Graeco-Egyptian Magicians
Egypt was once at the heart of magical practice, and the Graeco-Egyptian papyri are the clearest and most extensive documentation of some of these earliest methods. Using academic tools, Stephen Skinner has translated and presented the information contained in the papyri so that the magic will transcend theory and become a real practice. More than simply a guide to the papyri, Techniques of Graeco-Egyptian Magic is a complete survey and explanation of the techniques, including: Attracting love, health, and foresight
Bowl and lamp skrying
Sending of dreams
Mystery rites for fellowship with the gods
And more!
Uncover the techniques once used by Graeco-Egyptian magicians to bring this powerful magic into your life.
